

ANDREWS INSTITUTE

SPORTS MEDICINE OUTREACH

For assistance with a sports related injury or referral to one of our Andrews Institute physicians, our team of liaisons is happy to help navigate your health care journey.

How We Can Help:

- We understand the need and value of expedited, appropriate medical care for student-athletes from all sports.
- As a direct line of communication to physician offices, we can schedule student-athletes or community members for appointments, ensuring access to excellent care from a team of over 35 specialty physicians.
- We can assist with streamlining services and visits for needed care.
- We have quick access to providers and staff and are frequently able to facilitate scheduling outside of normal business hours.
- Baptist Health Care and Andrews Institute offer convenient locations throughout Escambia, Santa Rosa and Okaloosa counties.

Andrews Institute is proud to be the official sports medicine provider for area schools, colleges and community organizations throughout the Gulf Coast region. We take pride in supporting the health and well-being of our community, helping athletes safely return to sports after injury and improving quality of life for all.

For more information on our full scope of services and partnerships with Sports Medicine Outreach, please visit AndrewsInstitute.com or reach out to Matt McGraw.
